Anti-migrant protesters disrupt UK's Dover port

LONDON

HUNDREDS of masked people protesting Channel migrant crossings blocked access to the Port of Dover in southern England on Saturday, briefly halting traffic being ferried between France and the UK.

The Port of Dover said traffic was "free flowing" again around noon, hours after being "stopped" on Saturday morning as roads approaching the port were blocked by protesters.

Images shared online showed hundreds of people dressed in black and wearing balaclavas streaming to roads surrounding the port, used by ferries between southern England and northern France.

In an online livestream that appeared to be shot by one of the protesters, a crowd of black-clothed men chanted "stop the boats" as they stood facing a police line.

Britain has been grappling with how to curb the perilous and politically contentious small-boat crossings, which in recent years have seen tens of thousands of migrants arriving annually on the shores of southeast England. *AFP*

US envoys arrive in Moscow with Trump's plan to end Ukraine war

Witkoff and Kushner tasked with assessing prospects for durable peace, to visit Kyiv today

MOSCOW

US envoys Steve Witkoff and Jared Kushner were in Moscow Saturday and expected to head to Kyiv the next day, with Russia and Ukraine vowing not to strike each others' capitals during talks on ending more than four years of war.

US President Donald Trump earlier said his son-in-law Kushner and business ally Witkoff were bringing "a proposal to end the war".

The envoys are expected to head for their first visit to Kyiv Sunday, in Washington's latest bid to break a diplomatic stalemate in Europe's deadliest conflict since World War II.

Both the Kremlin and Kyiv vowed not to strike their main cities during the talks, after months of escalating attacks.

"The Russian president, the commander-in-chief, has given the order from midnight tonight not to strike Kyiv for three days," Kremlin spokesman Dmitry Peskov said.

Ukrainian President Volodymyr Zelenskyy — who had offered a truce during the US visits — later said he had spoken to the US envoys and also promised Kyiv would not strike Moscow. "From now through the end of Saturday, as well as on Sunday and Monday, Ukraine is ready to refrain from strikes on Moscow," Zelenskyy said.

The Ukrainian leader said the US officials have "already begun working with the Russian side today."

Earlier, he accused Russia of trying to disrupt their visit with overnight strikes on Kyiv's two airports, as well as on a civilian target in the Dnipro region that killed five people.

"Clearly, these Russian strikes on the airports are a reaction to the discussions and preparations for the possibility of the US side using an aircraft to travel to Ukraine," Zelenskyy said on X. It will be the first time that Witkoff and Kushner visit Kyiv since Trump returned to office last year with a pledge to resolve the conflict.

Travelling to Kyiv by plane would be a highly unusual move, with Ukrainian airspace closed since 2022 because of the war. Visiting leaders and officials have generally travelled by train. The envoys are expected in Kyiv on Sunday, a senior Ukrainian official told AFP, while US outlet *Axios* reported they would meet President Putin on Saturday. *AFP*

US says it destroyed three oil tankers linked to Iran Guards

WASHINGTON

THE United States said it struck and destroyed three Iranian oil tankers on Saturday in response to attempted missile attacks on naval vessels, in the latest exchange of fire since renewed hostilities flared between the foes.

The new clashes, which began with US raids last week, come with both sides deadlocked in the six-month war as Iran keeps a stranglehold on the Strait of Hormuz and Washington presses its counter-blockade of Iranian ports.

WAR WATCH

US Central Command said it targeted tankers linked to the Islamic Revolutionary Guard Corps (IRGC), accusing the most powerful arm of the Iranian military of unsuccessfully firing at American warships.

"Following Iran's failed attacks, CENTCOM permanently disabled the IRGC crude oil carriers M/T Downy off the coast of Kharg Island and M/T Stark 1 near Jask," it said. "American forces also completely destroyed the unladen crude oil carrier M/T Kylo... in the Gulf of Oman, striking the vessel in multiple critical locations to render it inoperable after the crew was directed to abandon ship." Video posted by CENTCOM showed large fireballs and billowing flames after projectiles slammed into the ships. The three vessels were "part of a multibillion-dollar shadow network that funds the IRGC and its regional proxies", it said. *AFP*

US military officials face lie-detectors over leak

The Pentagon has launched a lie-detector dragnet to comb through high-ranking military officials and identify who leaked information about US munitions stockpiles, according to US press reports. In July, reports emerged that the US was rationing munitions over supply concerns after several months of fighting Iran. Late Friday, *The New York Times* reported that some 50 members of the military's Joint Staff — the Pentagon's planning and advisory staff — were being required to take polygraph tests as part of an investigation into how classified stockpile information made its way into journalists' hands

US approves $5 bn sale of bombs to Saudi Arabia

The United States announced approval of a $5 billion sale of bombs, guidance kits and other equipment to Saudi Arabia, which has been repeatedly attacked during the US-Israeli war. "The proposed sale will improve Saudi Arabia's airborne defense capability to counter current and future regional threats, strengthen its homeland defence, and improve interoperability with systems operated by US forces and other Gulf partners," State Department said.

US phases out HIV support for Namibia

Washington: The US will start phasing out its financial support for Namibia's HIV response programs, the latest among southern African countries to feel the effects of the withdrawal of foreign aid by the US administration. The US will provide Namibia with USD 45 million for its HIV response in the 2027 fiscal year but the country would then start funding its own HIV programs, with US only providing "technical cooperation," both countries said in statement. Namibia has received around USD 45 million annually through the US President's Emergency Plan for AIDS Relief in recent years.
