

Why businesses owned by foundations do well & last long

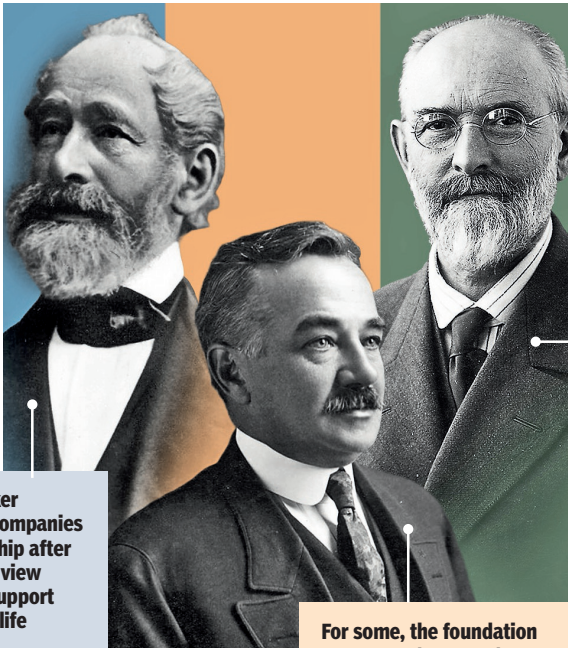

Shielded from stock market pressures, foundations can provide an edge to companies under them, by investing in people and technology, and by strategising for the long term

TIMES NEWS NETWORK

In the 1890s, factory hands worked up to 12 hours a day, worker rights were practically nonexistent. Yet, one German optical equipment maker had limited daily work to “no more than nine hours a day”, gave staff a week’s paid leave, and started profit sharing in the form of festive bonuses.

Owners or shareholders of any conventional business would have balked at such “largesse” at the time, but this company — Zeiss — wasn’t conventionally run

German optical equipment maker Carl Zeiss was one of the first companies to switch to foundation ownership after its founder's death, driven by a view to using its revenues to grow, support science, and give staff a better life

A big advantage of foundation ownership is that it avoids succession problems and lengthy litigation. Robert Bosch didn't create the foundation that runs German MNC Bosch today, but he put in place an ownership structure that would keep out unsuitable heirs and continue his charitable works

For some, the foundation was a way to promote causes beyond their lifetime. US chocolate giant Hershey, for example, has a simple aim: profits must be used to support the Milton Hershey School, as they have done for the past 117 years

Thinking Long-Term

Foundation ownership of businesses may be a relatively recent development in history, but foundations themselves have existed for millennia. Ancient Greeks made endowments for specific causes. The concept of waqf among Muslims had the same motivations. The foundation was a way for people to promote causes beyond their lifetime. In business, too, foundation ownership is about thinking and executing long-term.

Consider a business that is no longer owned by a person, family, or public shareholders. Instead, it has trustees or administrators bound by its guiding principles. Hershey, for example. It has a simple aim—profits must be used to support the Milton Hershey School, as they have done for the past 117 years.

Such a clear and long-term vision of a business’s purpose has many advantages. One, because there are no shareholders to please every quarter; management can focus on the longer time horizon — 10, 20, even 50 years. Tata’s bets on JLR and Corus in 2007-8 are good examples.

Around the same time, Carlseberg decided to raise money to buy brewing company Scottish & Newcastle. But it took care not to dilute the voting rights of its foundation. It kept 73% of votes even when its share of capital fell to 30%. Without foundation ownership, it would

have had a harder time protecting its independence.

Another big advantage of foundation ownership is that it avoids succession problems, which can embroil companies in litigation and weaken them with splits. German MNC Bosch is a good example. Its founder Robert Bosch didn’t create the foundation that runs it today, but he had put in place an ownership structure that would keep out unsuitable heirs and continue his charitable works.

At the end of WW2, when over half of Bosch’s German factories had been destroyed, and foreign assets seized, the ownership principles Robert Bosch had laid down helped shape the company’s post-war reconstruction. In 1964, these were formalised in the foundation-based structure that still protects its independence.

Lasting Longer

But if the whole idea behind foundation ownership is to make an institution or organisation outlast its founder family, how successful have such companies been? Their record is pretty impressive.

Beyond the names we’ve already discussed, you have watchmaker Rolex, Ozempic maker Novo Nordisk, world’s second largest shipping firm Maersk, and media giant Bertelsmann, to name a few.

Where foundation-owned companies really shine, though, is in terms of unglamorous metrics like stability, employee satisfaction and philanthropy. For example, Novo Nordisk Foundation last year gave 11.8bn kroner — roughly \$1.8bn — in philanthropic grants and investments. It can do so because it holds 77.3% of voting rights in the company with only 28.1% of shares.

Novo, Bosch, etc also give the lie to a widespread belief that only aggressively profit-driven companies can become leaders in their line of business. Novo is the global leader in diabetes and obesity care, partly because it invests almost 17% of its revenues in research.

A study of 110 foundation-owned businesses in Denmark shows they perform well even though their management is not focused on driving up share prices for higher financial rewards. And the reason is better corporate governance. Which might explain why such firms tend to have cleaner reputations — they are seen as more socially responsible.

Notably, few of today’s foundation-owned companies emerged in the 21st century. A possible explanation for it is that when Zeiss, Carlseberg, Rolex, etc set up controlling foundations, they were small firms with a big vision. Now, in this age of startups, founders mostly want to cash out at a high valuation. Their focus is on the stock market, not the product. Only a few might have any long-term vision. But for businesses that last centuries, you need more than a transactional short-term approach.

DGP to cops: Ensure zero-tolerance policing, zero festival deaths

TIMES NEWS NETWORK

Lucknow: With the start of festive season, DGP Rajeev Krishna on Thursday issued a statewide directive to police units to adopt a “zero-tolerance” approach towards crime, strengthen beat policing, crack down on repeat offenders and ensure zero fatalities during immersion processions and other festival-related events.

Chairing a virtual review meeting from police headquarters, the DGP told officers that zero tolerance must be a policing mindset rather than merely a govt policy. He instructed field formations across the state to respond swiftly to every crime, identify lapses that allowed offences to occur and take strong preventive measures to stop repeat incidents.

The meeting, attended by senior officers from all zones, commissionerates and districts, focused on crime prevention, pending investigations, festival security, traffic management, public grievance redressal, missing children and technology-driven policing initiatives.

Krishna directed police stations to intensify intelligence gathering and strengthen beat policing. Circle Officers were asked to regularly monitor information collected by beat personnel and target local crime hotspots, particularly the illegal manufacture and sale of narcotic substances.

To curb property crimes such as burglaries, thefts and chain-snatching, officers were told to increase patrolling and police visibility in markets, residential colonies and

DGP Rajeev Krishna

vulnerable areas. Police Response Vehicles (PRVs), motorcycle patrols and technological surveillance resources are to be deployed strategically based on local crime patterns.

The DGP also stressed greater use of the Yaksh application for rapid sharing of information about criminals, suspicious vehicles and emerging threats across districts.

Krishna ordered district police chiefs to make elaborate security and crowd-management arrangements, with a special focus on preventing accidents during idol immersions and bathing events. He directed officers to ensure proper barricading, warning signage, safe immersion zones and round-the-clock monitoring at vulnerable locations.

DGP set the target of zero deaths due to drowning or electrocution during festival celebrations. Officials were instructed to identify high-risk spots in advance, enforce electrical safety norms along procession routes and coordinate with local authorities to eliminate hazards.

K Congratulating the force for crossing one crore course completions on the iGOT learning platform, the DGP said the achievement should now translate into visible improvements in field policing, professionalism and public service delivery.

Cyber cops help save Del woman

Mumbai: Maharashtra Nodal Cyber helped Delhi police rescue an elderly woman from an ongoing digital arrest racket after detecting her transaction while probing a separate Rs 3 crore fraud involving a 74-year-old woman from Chhatrapati Sambhajanagar. Officials

said the Delhi woman had transferred about Rs 27 lakh.

Investigators traced Rs 89 lakh from the Sambhajanagar fraud to a mule account, where they found her fresh Rs 14 lakh RTGS transfer. Delhi police are registering an FIR. TNN

NOTICE INVITING OPEN TENDER ONLINE (E-TENDERING)

The Divisional Railway Manager, E.C.Railway, Danapur is inviting online (E-Tendering) Open Tender for and on behalf of the President of India from reputed contractor with experience, financial capability including those registered/working with Railway/Irrigation/CPWD/MES or any other public sector undertaking for the following work:-

Tender Notice No.:- W-7/E-Tender/11/Open/DNR/2026-27

SI.No. (1) Name of the work with its location : Supply of 1,00,000 cm 50mm size machine crushed track ballast as per RDSO specification for B. G. Railway track & loading the same into any type of railway wagons F.O.R Sakrigali including all sorts of incidental charges for East Central Railway. (2) Approx. Cost of work : 19,67,57,000.00/- (3) Bid Security : 39,35,100/-

SI.No. (2) Name of the work with its location : Operation & Maintenance of 16 nos. Automatic Chlorination plant at 03 nos. - RJPB, 01 nos. -MHX, 2 nos. -DDG, 02 nos. - PPTA & 08 nos. PNBE for 5 years. (2) Approx. Cost of work : 1,79,36,600.00 (3) Bid Security : 3,58,700/-

SI.No. (3) Name of the work with its location : IPR-Upgradation of running room at IPR by constructing 10 beds new building. (2) Approx. Cost of work : 1,02,69,075.83 (3) Bid Security : 2,05,400/-

SI.No. (4) Name of the work with its location : Provision of automatic chlorination plant at different station of Danapur Division. (2) Approx. Cost of work : 3,90,45,016.12 (3) Bid Security : 7,80,900/-

SI.No. (5) Name of the work with its location : Flash Butt welding of 60Kg/52Kg/90R Rails at site using road rail mobile flash butt welding plant at different locations under section of Sr.DEN/2/DNR. (2) Approx. Cost of work : 1,96,39,873.58 (3) Bid Security : 3,92,800/-

SI.No. (6) Name of the work with its location : Re-building of existing bridge no.52 (1x2.44m FC Slab) at Km 511/11-13 between Karauta and Khusrpur stations by new 1x3.0m x 2.5m clear span RCC Box bridge by pushing method under Sr.DEN/2/DNR section on main line of Danapur Division. (2) Approx. Cost of work : 1,41,42,991.88 (3) Bid Security : 2,82,900/-

SI.No. (7) Name of the work with its location : Rajgir - Construction of Ty-II 10 nos. quarters at Rajgir station. (2) Approx. Cost of work : 2,58,44,178.25 (3) Bid Security : 5,16,900/-

SI.No. (8) Name of the work with its location : Proposal for development of circulating area, station building, facade work, roof leakage etc. with other miscellaneous renovation work at PNC Station. (2) Approx. Cost of work : 1,88,18,228.05 (3) Bid Security : 3,76,400/-

SI.No. (9) Name of the work with its location : Improvement of PF surface, provision of toilet, PF shed and other essential passenger amenities items at Twinjani, Banahi, Karisath, Kuthana, Dheena and Darauil under Sr. DEN/3/DNR. (2) Approx. Cost of work : 6,49,69,329.50 (3) Bid Security : 12,99,400/-

SI.No. (10) Name of the work with its location : Provision of 04 km RCC boundary wall at Danapur and Bitha colony in Danapur Division. (2) Approx. Cost of work : 2,82,66,360.90 (3) Bid Security : 5,65,300/-

SI.No. (11) Name of the work with its location : Upgradation of Running room at DNR by dismantling of Old RR building and construction of 60 Bedded new Running Room at Danapur. (2) Approx. Cost of work : 3,66,21,919.33 (3) Bid Security : 7,32,400/-

(4) Date & Time for submission of tender and opening of Tender : The tender have to be submitted online on www.irops.gov.in. Upto 12.00 hrs. on the date of opening i.e. 06.11.2026 and will be opened on the same day after 12.00 hrs.. (5) Website particulars, Notice board location where complete details of tender can be seen and address of the office from where the tender form can be purchased etc. : Detailed tender notice, eligibility criteria & tender documents can be seen from the CRIS website: <http://www.irops.gov.in> & full details of notice can be seen on notice board. Amendments / modifications if any shall not be published in news papers, but the same shall be uploaded in the web-site. In case of any dispute in the English & Hindi version, modification/publication in IREPS will be acceptable. It is tenderers responsibility to view web-site for amendments / modifications and submit his tender accordingly.

Ex-pharma firm staff held in codeine-based syrup racket

TIMES NEWS NETWORK

Lucknow: The UP STF has arrested a former pharmaceutical company employee for playing a key role in a large network accused of diverting codeine-based cough syrups, including Phensedyl, from legitimate pharmaceutical channels into the illegal narcotics trade.

Bhupinder Singh Chauhan, a resident of Saharanpur, was arrested near the Shaheed Path in Lucknow on Wednesday in connection with a 2024 case registered at Sushant Golf City police station. STF officials said the case pertains to the alleged diversion, illegal storage and distribution of codeine-based cough syrups that were purportedly sold for use as intoxicants through a network of

pharmaceutical distributors, stockists and shell firms.

According to STF officials, Chauhan had been evading arrest since the case came to light. Two mobile phones, an ATM card and cash were recovered from him.

Investigators claim the arrest has provided crucial leads into what appears to be an extensive supply chain that operated across several states and allegedly used legitimate drug licences and pharmaceutical distribution channels to divert cough syrups into the illicit market.

"During interrogation, Chauhan disclosed that he joined a pharmaceutical firm as an area manager in 2006. After

leaving the company in 2019, he remained associated with pharmaceutical distribution operations and managed business activities linked to firms under investigation," said ASP, STF, Lal Pratap Singh.

Large quantities of cough syrup were reportedly supplied to stockists across western Uttar Pradesh, Uttarakhand and other states. Investigators suspect that while transactions appeared legitimate on paper, a significant portion of the products was diverted for illegal consumption.

Officials said several firms based in Ghaziabad were created to generate documentation and conceal the actual movement of pharmaceutical stock. These firms are being examined for their suspected role in

creating a paper trail that masked the diversion of codeine-based medicines.

The probe has also revealed a network of distributors and intermediaries spread across districts including Ghaziabad, Meerut, Saharanpur, Bulandshahr, Aligarh and Moradabad.

A significant aspect of the case is the STF's claim that some consignments were ultimately routed to smugglers operating along the Tripura and West Bengal borders. Investigators allege that cough syrup purchased through bogus entities was supplied without formal documentation and subsequently channelled to cross-border trafficking networks. Payments, officials suspect, were often routed through hawala channels.

HC seeks govt, FSSAI stand on plea against sale of analogue paneer

TIMES NEWS NETWORK

New Delhi: Delhi High Court Wednesday sought the response of Food Safety and Standards Authority of India (FSSAI), Centre and Delhi govt on a PIL raising concerns over the sale of dairy analogue/ non-dairy products as 'paneer' to unsuspecting consumers.

The petitioners argued

that while paneer is a standardised dairy product under food safety regulations, dairy analogue products contain non-milk ingredients and do not offer the same nutritional value.

A bench of acting Chief Justice Nitin W Sambre and Justice Sanjay Singh issued notices to FSSAI, Centre and Delhi govt on the petition filed by

teshwar Padmapani Sidharth, seeking their replies within six weeks.

The petitioners contended that consumers ordering paneer-based dishes in hotels and restaurants have no way of knowing whether the food has been prepared using actual paneer or a dairy analogue substitute.

Seeking urgent intervention ahead of the festive season, they

urged the court to direct authorities to undertake sampling and testing of paneer and products sold as paneer in the market.

"They are doing it, they have placed the statistics (before us) to that effect," the bench observed.

The plea said Gujarat, Punjab, Chhattisgarh and Maharashtra had taken steps against non-dairy paneer sales.
