Jio IPO Draws Rs. 7.40 Lakh Crore in Bids, Sets World Record for Applications

Mumbai, Oct 23 (Reporter)

India's biggest IPO closed on a historic high, drawing approximately Rs. 7.40 lakh crore in total bids, including anchor demand. Jio Platforms' Rs. 30,213 crore public issue also set a world record for investor applications, attracting over 13.8 million applications in three days, the highest ever for an IPO anywhere in the world. By the time bidding closed at 7 pm on Friday, the issue was subscribed more than 22 times. The total demand included around Rs. 4.90 lakh crore in non-anchor bids and Rs. 2.50 lakh crore in anchor demand. Retail investors also showed strong interest in the Jio IPO. Against approximately 8.5 crore shares reserved for retail investors, bids came in for more than 23 crore shares, taking subscription in the category to 2.72 times. The big question now is how many investors will get an allotment. However, the subscription multiple alone does not determine an investor's chances of receiving shares.

Allotment will depend on valid applications, minimum lot sizes and the applicable allotment process. Institutional investors led the demand, with the Qualified Institutional Buyers (QIB) portion subscribed 70.55 times. The Non-Institutional Investors (NII) category was subscribed 14 times, while the portion reserved for eligible Reliance Industries shareholders was subscribed 7.60 times. The employee portion was subscribed 2.93 times. Under the announced schedule, share allotment is set for October 26, followed by credit to demat accounts on October 27. Jio Platforms is scheduled to list on the BSE and NSE on October 28. The previous record for IPO applications was held by Waaree Energies, which received 9.73 million applications in October 2024. Jio surpassed that mark by approximately 42%. The IPO had attracted around 3.05 million applications on Day 1, with the number crossing 7.5 million by the end of Day 2. Investor participation accelerated further on the final day. The IPO's historic closing also coincided with the birthday of Akash Ambani, Managing Director of Jio Platforms, on Friday, October 23.

Adani Power net profit jumps 142 pc to Rs 7,019.32 cr in Q2

Kolkata / New Delhi, Oct 23 (FN Representative)

Adani Power on Friday posted about a 142 per cent jump in its net profit to Rs 7,019.32 crore in the September quarter of FY27, citing higher revenue and one-time income. Profit after tax stood at Rs 2,906.46 crore in Q2 FY26, the company said in a statement. Operating revenue increased by 29.8 per cent to Rs 17,014.06 crore during the quarter under review from Rs 13,106.34 crore in Q2 FY26, it said. The growth was driven by higher volumes on account of a significant increase in electricity demand and higher tariffs under the power purchase agreement (PPA) due to a sharp increase in imported coal prices and improved merchant realisation, Adani Power said. Also, there was one-time prior period revenue recognition of Rs 2,422.25 crore in Q2 FY27, primarily due to the revision in historic energy charges under certain PPAs, as compared to Rs 668.53 crore in Q2 FY26, it explained.

Finance costs were lower by 9.7 per cent at Rs 760.23 crore in the latest September quarter, compared to Rs 841.63 crore a year ago, due to strong operating cash flow generation and controlled utilization of operational debt. Pre-tax profit also increased 32.5 per cent to Rs 4,369.51 crore in Q2 FY27 from Rs 3,297.68 crore in Q2 FY26. The company stated that profit after tax, or net profit for the first half of FY27 (April to September), rose 91.4 per cent to Rs 11,885.92 crore compared to Rs 6,211.59 crore recorded in the year-ago period. The company further said that it is progressing rapidly on its capacity expansion programme to add 23,720 MW of new thermal power capacity. S B Khyalia, CEO of Adani Power, said, "As India's leading private thermal power producer, our vision is focused on ensuring the timely availability of high quality and reliable power supply to meet the country's growing baseload requirements. The primacy of domestic coal-based power in meeting India's long-term power needs has become clearer every day in light of geopolitical events and climate vagaries.
