Woman, 6-year-old daughter killed as truck rolls downhill & into hutments in Una

Shimla: A 40-year-old woman and her six-year-old daughter were killed after a Punjab-registered tipper truck rolled backwards and crashed into shanties of migrant workers in the Bathri industrial area of Haroli in Una district Sunday evening.

According to preliminary information, the tipper, associated with a crusher unit, was climbing a slope when it suddenly rolled backwards and fell into a nearly 10-foot-deep pit, crashing onto the shanties below.

Rinku Devi and her daughter Komal Kumari, who were inside their shanty, died on the spot. The tipper driver reportedly fled the scene after the accident. TNN

No anti-hail guns in Shimla orchards: HC

Sanjeev.Verma@timesofindia.com

Shimla: The Himachal Pradesh high court has directed the state govt to immediately stop operating two anti-hail guns in Shimla district's Jubbal-Kotkhai area for at least a year until a scientific study is available.

The direction came after an affidavit filed by the horticulture director indicated heavy rainfall due to the hail control system operating for more than an hour. A division bench comprising Chief Justice Gurmeet Singh Sandhawalia and Justice Bipin Chander Negi recently issued the directions based on a suo motu public interest litigation (PIL) regarding the use of anti-hail guns at Deorighat and Bareonghat villages.

The bench observed that the affidavit appeared to substantiate the petitioner's concerns that firing anti-hail guns could push clouds towards adjoining apple orchards, resulting in excessive rain and hail in neighbouring areas. "Thus, it is apparent that the concerns raised in the representation stand substantiated," the bench observed. Anti-hail guns primarily protect apple orchards by diverting hail-bearing clouds.

The court ordered the govt to issue instructions ensuring private persons do not use such guns and to file a comprehensive response on concerns raised by the petitioner, including references to alleged adverse effects of anti-hail guns in Mexico, Romania and other countries. It also asked the state to assess whether stopping the guns' operation benefits surrounding areas. The bench noted the state govt's reply that Dr Y S Parmar University of Horticulture and Forestry, Nauni, Solan district, was conducting a study on the system, but it will take four years to reach a conclusion

The bench impleaded the university through its registrar as one of the respondents, returnable within four weeks. The court had registered the PIL based on a communication received from a resident of Bhamnoli village in Rohru tehsil of Shimla district. According to the communication, areas including Baghi, Ratnari, Deorighat, Rohru and Kumarsain in Shimla district were reportedly affected by the operation of anti-hail guns.

The petitioner alleged these anti-hail guns generate high-intensity shock waves that disturb the atmosphere and adversely impact livestock, wildlife and the agricultural ecosystem. The representation further claimed that concentrating rainfall and hail in diverted areas could disturb the environmental balance and contribute to natural disasters, including cloudbursts. Concerns were also raised about noise pollution caused by the repeated use of the guns. The petitioner also contended that while these devices may safeguard specific agricultural or horticultural areas, they divert clouds towards other regions, resulting in heavier rainfall and hailstorms where the guns are not installed.

The next hearing is on Dec 8.

HC seeks data on pending traffic fines, asks judges for ways to clear backlog

Sanjeev.Verma@timesofindia.com

Shimla: Himachal Pradesh HC has sought district-wise data on traffic challans pending before courts and asked the high court registrar general to seek suggestions from district and sessions judges on ways to reduce the backlog.

A division bench comprising Chief Justice Gurmeet Singh Sandhawalia and Justice Bipin Chander Negi passed the directions while hearing a suo motu PIL concerning the large number of traffic challans pending on govt portals and in courts.

The court observed that around 50% of criminal cases in Himachal Pradesh's districts were summary cases, with a substantial portion of the pendency arising from traffic challans. The problem is particularly acute in areas witnessing heavy tourist inflow, as many offenders from outside the state do not return to pay their challans.

Taking note of the issue, the bench impleaded the registrar general of the high court as respondent.

The court had earlier taken note of the approach Uttar Pradesh adopted to deal with old challans. It was reported that if the state cannot effect service for two years, a proposal can be made to withdraw the prosecution. However, an affidavit filed by the director of transport reasoned that doing so could send a signal that violations lose significance with time and may embolden habitual offenders. The next hearing is on Dec 7.

Chamba school principal suspended over objectionable remarks, fund misuse

Shimla: The Himachal Pradesh education department has suspended Bhagat Singh, lecturer-cum-officiating principal of Govt Senior Secondary School, Thanei, in Chamba district, pending disciplinary proceedings over allegations of mental harassment, objectionable remarks and financial irregularities.

According to an order issued by Ashish Kohli, director, school education, disciplinary proceedings against the officiating principal are contemplated over allegations, including harassment of staff, making objectionable remarks in the presence of staff and students, demanding money from employees and alleged misuse of the Rashtriya Madhyamik Shiksha Abhiyan grants and the Parent-Teacher Association funds.

The officiating principal has been suspended with immediate effect under Rule 10(1) of the Central Civil Services (Classification, Control and Appeal) Rules, 1965. During the suspension period, Bhagat Singh will remain attached to Govt Senior Secondary School, Kwar, in Shimla district. He has been directed not to leave the school without prior permission from the controlling authority.

10-foot-long king cobra rescued from Paonta Sahib house

Shimla: A 10-foot-long king cobra rescued from a house in Paonta Sahib on Sept 28 has been safely released into Khara forest after being kept under observation by forest department.

The video of the snake rescue has gone viral on social media. The snake had entered the house of one Gurbaksh Singh near a petrol pump on Bankua-Jamniwala Road in Paonta Sahib on Sept 28. Its presence inside the household toilet triggered panic among family and nearby residents. On being alerted, local snake rescuer Bhupender Singh reached the spot and safely rescued the reptile before handing it over to forest department.

Bhupender Singh (49), popularly known as 'Snake Man' from Punjab's Mohali, has been living in Paonta Sahib for nearly three decades and claims to have rescued hundreds of snakes, with the aim of saving them rather than killing them. TNN
