Just say the map of the society built 13 years ago is missing

Ahmedabad

It has come to light that the map of the Abjibapa Lakeview flat, which was built 13 years ago in the Vastral area of ??the city, has disappeared from the records of the Municipal Corporation. Despite the fact that there are two other gates in the society, the residents of the flat have been pressured, so the layout plan of the construction of the flat was sought from the Estate and Records Department of the Municipal Corporation through RTI. However, the corporation has not found the layout plan and other related records. However, local residents have alleged that construction has been done illegally in the gate area, so they are being told that this map is not available due to the connivance of the corporation officials.

Vinay Gupta, an officer of the estate department of the eastern zone of the BJP corporator Municipal Corporation, said in a conversation with Divya Bhaskar that I will be able to tell after investigating the layout plan of the flat and related records. I don't have it in my mind. Meet Prajapati, a BJP corporator from Vastral ward, said that no representation has been received regarding this matter. However, I will get this matter investigated. When corporator Paresh Patel was contacted by Divya Bhaskar, he did not pick up the phone. Earlier there were only 3 gates in the flat, now there is only one gate.

In the Vastral area of ??the city, there is Abji Bapa Lake View Society near Ratanpura Lake, which has 412 houses and more than 1600 people live in it. This flat was constructed in the year 2013 and possession was given to the people in the year 2015.

There were 3 gates in Abji Bapa Lake View flat. However, currently only one gate is available, so the residents of the flat should have another gate for the safety of the citizens.

Breast Cancer Cases Increase by 16% Over Five Years in Gandhidham

Gandhidham, Breast cancer cases in Gandhidham have increased by 16% over the last five years, reflecting a growing concern around cancer incidence and the need for greater awareness, early detection and timely medical intervention. According to the overall consultation data from the practice of Dr. Mohit Modi total cancer cases have increased by 15% between 2021 and 2026, while breast cancer cases have recorded a 16% rise during the same period. The trend highlights the importance of improving awareness about breast health, encouraging women to seek medical advice for unusual changes and addressing barriers that often delay diagnosis.

Dr. Mohit Modi, Consultant Medical Oncologist, Sterling Hospitals, Gandhidham, said, "According to the trends observed in my overall clinical practice and consultations, we have seen a 15% increase in total cancer cases over the last five years, from 2021 to 2026, with breast cancer cases alone increasing by 16% during this period. This is a concerning trend and underlines the need for greater awareness around breast health. Women should not ignore changes such as a lump, nipple discharge or alterations in breast shape and should seek medical evaluation without delay. Fear and hesitation should not come in the way of timely diagnosis. Early consultation and appropriate investigations are important steps towards ensuring better treatment planning and outcomes."
